Nifty Fut. continues oscillating within the ongoing Triangular pattern lacking momentum for breach above the pattern resistance line placed at 10950. Out bounds of the Triangular pattern are narrowing and breach from the pattern above 10950 upper resistance line is necessary for an accelerated move on the upside targeting 11140 pattern target in sync with our ongoing expectations with a possibility of an extension towards 11300. The bullish setup would be considered void in case 10600 is violated on a close from hereon & hence serves as a stop for momentum longs while positional longs can be held with stop placed below intermediate trend support 10440. Traders should hold longs initiated on breach above 10778 with stops placed below 10600 for an immediate move towards 11140
